Nixon ("personal papers") - Los Angeles Times says Nixon and the president of the University of Southern California, John R. Hubbard, have been discussing the possibility of Nixon donating (AP:) "his personal papers" to the university. Hubbard "met with Mr. Nixon at Mr. Nixon's home in San Clemente three times in recent weeks in what university sources described as 'preliminary' talks.' .... One problem concerning a possible gift of the papers, [the LATimes] said, is which of Mr. Nixon's papers would be available, for Congress has passed a law claiming ownership of many of Mr. Nixon's Presidential papers and tapes for the Government. Mr. Nixon is challenging the constitutionality of that legislation."

AP report gives no indication of what "papers" are involved in the discussions between Nixon and Hubbard.

The Nixon Foundation was officially dissolved 10 Apr; see entry that date. See also entry 1 Apr, Nixon library.
