Nixon pardon - "Richard Nixon got his unconditional pardon from President Ford one month to the day after he left office. David Ganger, 22, of Murray, Ky., a draft offender, who was recommended last February for unconditional pardon by the President's Clemency Board, still is waiting for his. [Story details Ganger's hardships, including the death of his mother after open-heart surgery, attributed to the delay by Ford.]

"[David Ganger's case] only serves to revive suspicion that the President's 'clemency' program was not set up to offer mercy to the likes of David Ganger but to soften the country for case No. 1 - the pardon of Richard Nixon."
