"Nixon Still Too Ill to Testify [in WX] in Tapes Suit, Lawyers Say" - Nixon lawyers filed a motion in court "this week" (6 to 12 Jul) in attempt to block a deposition of Nixon requested by William Dobrovir, "an attorney for one of the many parties involved in the complex litigation over possession of Presidential tapes and papers." Motion says Nixon is still too ill to go to WX to answer questions in person, but could answer such questions in the form of written interrogatories. AMP B

Haldeman (Mike Wallace intvs, payment) - "High-ranking sources at CBS News have disclosed\*that [Haldeman] received \$100,000 for his two one-hour interviews with Mike Wallace on March 23 and March 30 - not \$50,000 as had been reported previously. The sources, who had supplied the original \$50,000 figure and vouched for its accuracy several times, volunteered the new information for the sake of the record. The network, officially, has refused to discuss the terms for the televised interview with Mr. Haldeman."

(A)- For another picture, see SFEx 10 Aug 75; it appears to have been taken today, judging by clothing and bare feet. Caption: "Greeting public with strained smile."

There is another beach photo, undated, carried by SFC 9 Aug 75.

(B)- "[Nixon] is known to be itching to travel overseas, but his physical stamina is still in doubt, and if he should prove well enough for that, he would immediately be confronted by demands that he appear as a witness in the many continuing Watergate-related legal actions."
