

# Oil Firm Official Must Testify on Nixon Funds

## Houston

A federal grand jury yesterday ordered a top officer of an oil firm to testify today in its investigation of a \$100,000 contribution to the Nixon campaign linked to the secret Watergate fund.

The government also subpoenaed all the company

records of salaries paid Robert H. Allen, president of Gulf Resources and Chemical Corp.

The panel is investigating the possibility the donation came from company funds, a violation of federal election laws. Allen said it was his own personal contribution.
