

Former Aide Predicts Nixon  
Will Resign or Be Impeached

JUN 12 1973

REGINA, Canada, June 11 (Canadian Press) — A former aide to President Nixon said yesterday that the President was on the road either to resignation or impeachment over the Watergate issue.

Clark Mollenhoff, Pulitzer Prize-winning journalist and a former aide to the President, also said in an interview while visiting relatives here that the Nixon Administration was corrupt.

"I believed that the Administration was corrupt. I believed they were wrong on the Watergate. I believed they were trying to cover it up. I believed they were lying at the White House."

Mr. Mollenhoff said Watergate would lead either to impeachment or resignation of the President within six months.
