

All Networks Cover Dean

NEW YORK — (AP) — CBS, ABC and NBC all will carry live coverage Monday of former White House counsel John Dean's appearance before the Senate Watergate committee, the networks said today.

The networks, which have rotated live coverage of the Watergate hearings among themselves since May 25, all planned live coverage of Dean's scheduled appearance last week.

However, the committee postponed its hearings for a week because of the meetings between President Nixon and Soviet Communist party leader Leonid I. Brezhnev this week.
