Impeachment

The Barristers Club said yesterday that 697 young San Francisco lawyers believe the House of Representatives should vote articles of impeachment against President Nixon.

The club, representing 1700 attorneys under the age of 36, said it sent out a questionnaire on the issue and received 859 replies — 133 members saying that impeachment should not be voted and 29 abstaining.

Club president Carl A. Leonard noted that voting articles of impeachment does not necessarily imply a vote for removal from office, since the Senate would act as a jury on the charges.
