

Sen. McGovern Calls for Nixon Impeachment

Chapel Hill, N.C.

Senator George McGovern, declaring the public can no longer support an administration that "offers up a lie a week," has called for the impeachment of President Nixon.

Speaking at the University of North Carolina, McGovern said impeachment is "the only honorable way" to restore justice in the United States.

"We demand that justice be done," he said. "The agency is Congress and the remedy is impeachment."

The South Dakota Democrat defeated by Mr. Nixon in the 1972 presidential election said that "with each passing day it becomes harder to believe what the White House says."
