

Stretching His Legs

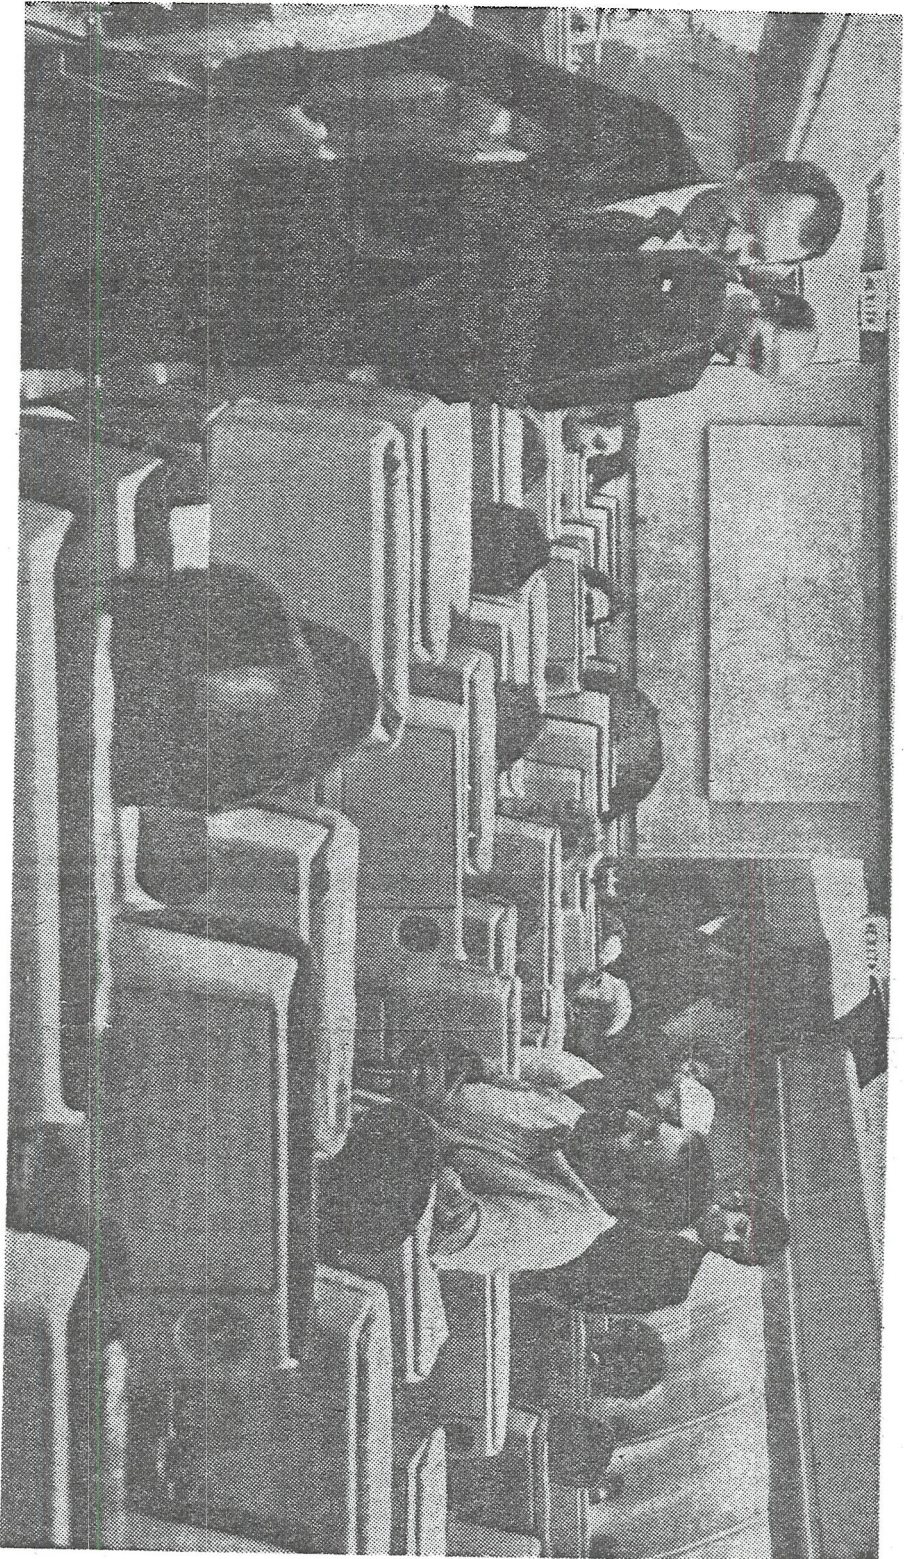

A Surprise For Other Passengers

On his flight to California, President Nixon astonished his fellow passengers aboard the United Air Lines DC-10 when he took a stroll through the coach section. Mr. Nixon shook hands and signed autographs for the passengers, who had no idea that the President was aboard when the flight left Dulles Airport near Washington. He also posed for a photo with 18-month-old Edward Hapgood, who was traveling with his parents. Story on Page 1.
