

Waldie

Prediction

On Nixon

Washington

Representative Jerome R. Waldie (Dem-Calif.) predicted yesterday that President Nixon will resign before the end of March.

The California Democrat said he believed Republicans would begin demanding the President's resignation when they return for the next session of Congress on January 21.

After sounding out their constituents, Waldie said, the GOP members of Congress would want to turn the party leadership over to Vice President Gerald R. Ford to avoid "disaster" in the 1974 elections.
