U.S. Says Date of Nixon Trip  
To Europe Has Not Been Set

Special to The New York Times

WASHINGTON, Feb. 21—  
The date for President Nixon's  
expected trip to Western Eu-  
rope is still open, the White  
House said today.

Gerald L. Warren, deputy  
White House press secretary,  
deided published reports that  
Mr. Nixon had postponed the  
trip from this spring to Sep-  
tember.

He said no date for the trip  
had ever been announced and  
that Secretary of State Kissin-  
ger's statement in January—  
that the President expected to  
make such a trip, contingent  
on the receiving of certain  
agreements with the European  
allies, and that this could hap-  
pen in April—still stands.
