Former Senator Recommends Impeachment

COLORADO SPRINGS, Colo. (UPI)—Former U.S. Sen. Margaret Chase Smith Thursday said impeachment proceedings should be brought against President Nixon, but she believes the evidence now available would lead to acquittal.

"As far as I can see, nothing has been proven as far as illegal acts on the part of the President and this is what has to be decided," Mrs. Smith, a Republican, said. "So many people feel that impeachment means conviction. That's not true."
