**PAPER SAYS NIXON
WILL RISK A TRIAL**

WASHINGTON, April 22 (UPI)—The Miami Herald says that President Nixon has decided, contrary to the advice of leading Republicans, to risk impeachment and refuse to meet the House Judiciary Committee's subpoena for tapes and other material it seeks for its impeachment inquiry.

The Herald quotes a "high Republican source" as saying Nixon had decided to take his chances in a Senate trial. The Herald's sources said Mr. Nixon felt confident of winning the necessary one-third vote in the Senate to keep him in office.
