

Poll Shows Record Lead By Demos

New York

A Harris Survey published yesterday gives Democrats a record 52 to 29 per cent lead over Republicans in November congressional elections.

The pollster, in a late March survey of 1184 "likely voters," found that the Watergate scandal had a "significant bearing" on the GOP popularity slide.

The Democrats' 23 per cent lead was the largest ever recorded for congressional contests and larger than any actual result since the 1930s, according to the survey.
