

Defends the President

I'm sure the people who tried to cover up Watergate thought they were doing the best for our country

The case has been tried so often on television and in the papers, people have been influenced and have forgotten the good President Nixon has done. Presidents who preceded him were unable to stop the war and bring our prisoners home. President Nixon stopped the riots on the campuses and in the streets. Persons abroad hold high regard for our President.

The Republican and Democrat congressmen alike are afraid not to go along with the impeachment proceedings because they are afraid they will not be re-elected.

Let's put the tapes with the Chappaquiddick papers and let Mr. Nixon get his mind on the important business of today.

Please, lets have more factual news and less opinions from the press.
