

The Greatest Fault?

Editor — I take exception to one of your readers under "The Transcripts" (Letters, May 17) who states "Mr. Nixon is, truly, our grossest national product."

All things being relative, and Mr. Nixon, not being our only President, why not unseal the Kennedy papers to shed light on who the "grossest" may be.

Mr. Nixon's greatest fault may be the inability to seal things quick enough.
