

Poll Results on Nixon Holding Back Tapes

New York

A Harris poll released yesterday reported 56 per cent of those surveyed feel the House Judiciary Committee should vote a bill of impeachment if President Nixon does not hand over material and tapes it has requested.

The poll taken in 1555 households between May 4 and May 7 showed 33 per cent re opposed to such action and 11 per cent had no opinion.

"On every dimension surrounding his response to the Watergate inquiry by the House Judiciary Committee, President Nixon comes with negative reactions from the American people," the poll said.
