

**Personalities****Pat Nixon:  
Disguised  
In Flight**

Pat Nixon confirmed yesterday that she took a commercial shuttle flight to and from New York last weekend but denied that there was any new White House austerity policy affecting the First Family.

"I take them (commercial flights) when my trips are private," the First Lady told reporters during a reception she gave for 110 members of the 3-month-old Pat Nixon Republican Women's

Club of Northern Virginia.

Mrs. Nixon said she was "in disguise—the works" for her flights to and from New York where she reportedly went shopping and visited friends.

Of the GOP club named for her, she joked that it was "a great honor—on the other hand, I don't know how long I'm going to live and they might forget me after a while."
