

SHOULD THE PRESIDENT BE IMPEACHED?

After the speeches, discussions and debates . . . the explanations, interpretations, analyses, polls, surveys and investigations . . . the central question will remain for us and our elected representatives to answer: Should the President be impeached? If he is impeached, should he be convicted and removed from office?

In this section, SKEPTIC presents a scattering (rather than a sampling) of pros and cons from qualified leaders and commentators. Some are predictable. Others, such as Eugene McCarthy, author of this month's Forum Letter, are not.

The purpose of this collection of responses to the McCarthy letter and other key articles and essays is to give you a reasonably broad range of viewpoints and arguments against which to compare, develop and sharpen your own opinions.
