

Nixon Poll Low

New York

President Nixon's over-all standing with the American people had once again plunged to a record low of 26 per cent positive and 71 per cent negative just before his travels in the Middle East, the Harris poll reported last night.

For the first time, Harris

reported, a majority of the American people disagree with the proposition that Mr. Nixon is "a man of high integrity." Faith in Mr. Nixon's honesty has dropped from a high of 76 per cent in September, 1972, at the height of the presidential campaign, to its current low of 34 per cent.
