

Callers Tell Of Concern For Nixon

Long Beach

Many former associates and prominent figures, including First Lady Betty Ford, have called to express their concern for former President Nixon's health, former White House Press Secretary Ronald Ziegler said yesterday.

Other callers included California Governor Ronald Reagan and religious leaders Billy Graham and Norman Vincent Peale, Ziegler said.

"He also received calls from former staff members in Washington," Ziegler said.

"Mrs. Ford called Mrs. Nixon this morning," he said.

He said the calls to Mr. Nixon's room are handled by his valet, Manolo Sanchez.
