Percy Doubts '76 Nixon Role

United Press International

Sen. Charles H. Percy (R-Ill.) said yesterday he believes former President Nixon is "going to stay strictly out of politics in 1976."

Percy said that he spent a couple of hours with Nixon at his San Clemente estate last Thursday. He said the room was pepper-

ed with manuscripts of a book on which Nixon is hard at work.

"He's relaxed," said Percy. "He looked good. He roamed the world. I must say he had a great perception of the world.

"I have a feeling he is going to stay strictly out of politics in 1976."
