Reur 11/9 on GL's \$\$\$ and LAT 11/8 and NYT 10/21, there is another version I heard on night-time news radio or some other broadcast in which there is a similar but different story I've not obtained. A Dallas paper claimed a first-erson source in oil who claimed to have been part of funnelling large sums to Nixon over the years, totallying as I now recall about \$8,000,000 and beginning with a single sum of \$350,000. That account had of which cannot be released under Swiss Bank Corp. in a numbered account the owner specialist in investments and in oil and claimed first-person knowledge. HW 11/15/75
