# Our Successes Are Also Our Failures

The men pictured here are some of the Vietnam War resisters SAFE RETURN has helped return to America, their families and friends.

For all of them, their return meant an end to exile, hiding and living in constant fear. It has also been the beginning of new difficulties. They are marked men, stigmatized for life with less-than-honorable discharges and prison records.

Their punishment will continue until there is a universal and unconditional Amnesty. That is the day we are working for.

Dear Concerned American;

No one was angrier than Alan when Nixon was let off scot free. (Alan's a pseudonym for an actual resister.) When President Ford insisted that men like Alan perform "alternative service" after demanding nothing of Nixon, it added insult to injury. Alan, like tens of thousands of others, rejected Ford's punitive Clemency program. He still faces jail if he comes home. He's one of the reasons we're asking you to help now.

Alan's a new kind of exile. He is forced to live a thousand miles from his family and loved ones for one basic reason---he refused to fight in a war he knew was wrong. When his Draft notice arrived in 1966, he and his wife, Judy, left their home in Tennessee and went to Canada. After the first bitterly cold winter, she took their two babies and returned to the South. Alan has never seen them again. It was nearly two years before he found steady work. It's hard to believe that Alan has been separated from his country for ten years now.

As a recipient of this appeal, it's likely that you long opposed American involvement in Indochina. But, you probably recall when Alan's beliefs were unpopular with many Americans. Alan and thousands of others took courageous steps when they refused to serve in Vietnam. Tragically, they're still being punished for resistance to a war which nearly all Americans now consider a national disgrace.

My story too, is typical. I was a teenager when I joined the Army. I signed up in hopes of escaping the "mean streets" of Detroit. When they asked for volunteers for Vietnam, I stepped forward, thinking I was doing my patriotic duty.

I'll never forget what I saw there. One year as a medic, living with the screams and moans of the wounded; pouring water on the still-burning phosphorous bomb wounds of little boys and girls. A day didn't pass when I wasn't treating the hideous wounds of blinded or dying GIs. When I returned home, I couldn't bear to wear my uniform, so great was my pain about Vietnam. I deserted. Only when SAFE RETURN agreed to defend me and sponsor my public return, could I resume a normal life.

I cannot expect that working for amnesty will have the same significance for you as it does for me. I wouldn't want you to have endured the horrors of Vietnam and the years of fugitive life which followed. But, I hope you'll share my determination that America accepts its responsibility and truly tries to make peace with its own sons.

We at SAFE RETURN must re-double our efforts in this Bicentennial and election year. I hope we can count on you. If you can, send \$25, \$50, \$100 or more. Every dollar brings us closer to the goal of universal amnesty. Won't you please join us?

Yours truly,  
*Ed Sowers*

Girl: I'm not going to have boys.

Sc. 2

Despite its noble pronouncements in the United Nations, the Ford Administration has consistently opposed general amnesty for tens of thousands of Americans — those who resisted the Vietnam War. SAFE RETURN Amnesty Committee has been working for universal amnesty for the past four years.

# Who Needs Amnesty?

## *Two Million* War Resisters

### Military Resisters

- ★ 600,000+ veterans (many with Vietnam duty) received less-than-honorable discharges during the Vietnam era. Over 90% of these were given administratively—without judicial safeguards—for acts which, for the most part, would *not* be crimes under civilian law.
- ★ 4,200 deserters still "at large" either in exile or "underground" in the U.S.
- ★ Thousands of soldiers resisted the war *within* the military, but did not desert. They were charged (and punished for) missing troop movements, refusing orders, distributing anti-war literature and the like. Some of these men are still in prison, most received "bad" discharges.

### Draft Resisters

- ★ 8,619 were convicted of Selective Service violations. Amnesty would expunge their prison record and restore their civil rights.
- ★ 4,400 draft refusers are still under active indictment and face immediate arrest and trial.
- ★ 7,500 resisters have become citizens of Canada or other countries of refuge (often as a precondition to permanent employment). Under present law, they are permanently barred from entering the US — even for a serious illness or death in the family.
- ★ Nearly a million men never registered for the Draft. Selective Service recently estimated that between 50,000 and 100,000 men failed to register each year of the war. These non-registrants could be jailed for five years and fined \$10,000.

### Civilian Resisters

- ★ Tens of thousands of civilians were convicted for "crimes" such as trespass or illegal demonstrations which were directly related to anti-war protests. On May Day, 1971 alone, over 12,000 civilians were arrested in dragnet-style arrests ordered by the Nixon White House. Amnesty would remove the stigma of criminal records and restore all civil rights.
