JIM BISHOP

Now—five years after the tragic events in Dallas—the nation's greatest reporter analyzes the nation's greatest tragedy in an uncensored minute-by-minute account.

The Day Kennedy Was Shot is the result of five years of exhaustive and probing research. A moving and terrifying document, it brings you the events of that day with poignant and penetrating immediacy. You are there—in Dallas, in Air Force One, in Parkland Hospital—minute by minute as the tragedy builds to its climax, as Lee Harvey Oswald and John Fitzgerald Kennedy move into their appointed places for their fateful encounter.

The Day Kennedy Was Shot is Jim Bishop's comprehensive, balanced, painstakingly documented account of November 22, 1963. He began work on this book the Sunday following the assassination, read more than 16 million words written about it before he wrote even one himself. Jim Bishop is the only writer on the Kennedy assassination who was permitted to interview President Johnson and Mrs. Johnson on their activities and thoughts that terrible day.

The Day Kennedy Was Shot clarifies many puzzling points—answers questions never before adequately covered even in the monumental Warren Report.

- Why did LBJ board Air Force One, enraging the Kennedy group?
- When did President Kennedy really die?
- How long was the United States without a President?
- Why did Lee Harvey Oswald want to be caught?
- Where was the man with the secret codes—the only man who had the key to our national defense in case of surprise enemy attack?
- Why did the autopsy report of the President's wounds differ from the statements released by the Parkland Hospital doctors?

The Day Kennedy Was Shot is complete, incisive, shocking, and brilliant—the first complete minute-by-minute, hour-by-hour, person-by-person account of the events of November 22, told by a master reporter.

Jim Bishop is the best-selling author of *The Day Lincoln Was Shot*, *The Day Christ Died*, *A Day In The Life of President Kennedy*.
