

This devastating book is going to spark the controversy of the decade.

It is the only completely documented critique of the Warren Commission Report.

It reproduces photographs from the archives which have never before been seen by the public.

It examines the complete text of the recently declassified F.B.I. report on the Kennedy assassination . . . and a great deal more.

THE WARREN COMMISSION was organized to answer certain crucial questions about the Kennedy assassination and the related murders of police officer J. D. Tippit and Lee Harvey Oswald. In spite of the mass of material presented before the Commission, many of these questions still remain unanswered. Mark Lane asks why. Step-by-step, he examines not only the evidence brought to light by the Warren Commission, but the copious evidence to which it gave only cursory attention. Lane offers no "assassination theory." He does expose serious and irrefutable inconsistencies in the work of the Warren Commission. Some of these inconsistencies are small; some are frighteningly large; combined, they raise inescapable doubts about the "official version" of the assassination of John F. Kennedy.

ABOUT THE AUTHOR

Mark Lane has practiced criminal law in New York for more than 15 years. In 1969, Mr. Lane, together with Mrs. Eleanor Roosevelt, Senator Herbert Lehmann, and others, founded the Reform Democratic Movement within the New York Democratic Party. Following the Kennedy assassination, Mr. Lane formed the Citizens Committee of Inquiry and began an investigation into the facts surrounding the assassination and the murder of Lee Harvey Oswald. He personally traveled to Dallas seven times, testified twice before the Warren Commission, and has lectured widely on his findings throughout the United States and Europe.
