The author of **RUSH TO JUDGMENT** presents an explosive summation of his efforts to bring his dissenting opinions before the American public and of the incredible difficulties he encountered in questioning the official view of President Kennedy's assassination.

The massive opposition on the part of the newspapers, magazines, and the major T.V. and radio networks which Mark Lane encountered demonstrates a peril to our cherished freedom of speech and freedom of the press.

In **A CITIZEN'S DISSENT** he describes the mysteriously cancelled debates on "personality" shows; the debates that took place but were not mentioned by the press, Radio or T.V.; the personal harassment he underwent; the obstacles to the publication of *Rush To Judgment*, which eventually became a nationwide #1 best seller and changed the American public's acceptance of the Warren Report.

Mark Lane succeeded in shattering the great silence - the controversy and the facts are freely aired so that a more rational assessment of the tragedy may be reached. In this book he may make an even greater contribution in preserving the integrity of a free society.
