

Eternal light burns over JFK's grave

DID IT HAPPEN?

A charging bull is stopped by Dr. Jose Delgado's radio signals to electrodes implanted in its brain. Was Lee Harvey Oswald similarly controlled? He spent more than a week as a patient in the Soviet Union's Behavior Control Project in Minsk. Was a miniaturized radio receiver, smaller than a man's shirt button, placed in Oswald's cerebral region? Were Oswald and Ruby (who had a plate in his skull) pawns in a fantastic game of international finance that netted "the group" half a billion dollars? Why did a prominent businessman, now in jail, go to New Orleans in August, 1963? "Were We Controlled?" follows up document after document, clue after clue. It's an amazing story. Read it today. Argue about it all night.
