Zambia Seizes Sugar

Special to The New York Times

LUSAKA, Zambia, May 10—
Zambia's customs controller yester-
day seized 1,000 tons of sugar
believed to be part of a much
larger consignment of Rhode-
sian sugar being sold in defiance
of United Nations manda-
tory sanctions. Sugar is one of
12 commodities that United

Eternal light burns over JFK's grave

DID IT HAPPEN?

A charging bull is stopped by Dr.
Jose Delgado's radio signals to
electrodes implanted in its brain.
Was Lee Harvey Oswald similarly
controlled? He spent more than a
week as a patient in the Soviet
Union's Behavior Control Project
in Minsk. Was a miniaturized radio
receiver, smaller than a man's shirt
button, placed in Oswald's cerebral
region? Were Oswald and Ruby
(who had a plate in his skull)
pawns in a fantastic game of in-
ternational finance that netted "the
group" half a billion dollars? Why
did a prominent businessman, now
in jail, go to New Orleans
in August, 1963? "Were

up document after docu-
ment, clue after clue. It's
an amazing story. Read it
today. Argue about it all
night.

will be the second raise in
ensions for the approximately
70,000 retired soft coal miners
in less than two years, and the

highest pension figure in the
21-year history of the fund.
A spokesman for the fund
said the new increase in pen-
sions, financed by a 40-cent-a-
ton royalty on bituminous coal,
is a result of increased coal
production.
Pensions were \$100 a month
with retirement at age 62 when
the fund first started in 1946,
but was cut back to \$75 a
month in 1964 because of re-
duced coal output. Retirement
age was later dropped to 60.
