

THE KENNEDY CONSPIRACY, by Paris Flammonde and Eric Norden (Nov. 8, \$6.95) was written with the cooperation of Jim Garrison, the New Orleans District Attorney who has made his own investigation of Lee Harvey Oswald and the Kennedy assassination. The book analyzes his investigation in detail, giving more weight to his theories than is generally conceded elsewhere. Paris Flammonde was for many years producer of the "Long John Nebel" radio show and Eric Norden wrote an interview with Garrison which appeared in Playboy.
