

"Succeeds brilliantly...Puts Condon once again into the first rank of American novelists."

—Leo Brady,
The New York Times Book Review

Working outward from the core of realistic event—the assassination of a President—Richard Condon has written "his best book since *The Manchurian Candidate*. The times have caught up with him, or vice versa, and I'm happy to be on his fanwagon once again...WINTER KILLS is grand entertainment."—*Christopher Lehmann-Haupt, The New York Times.*

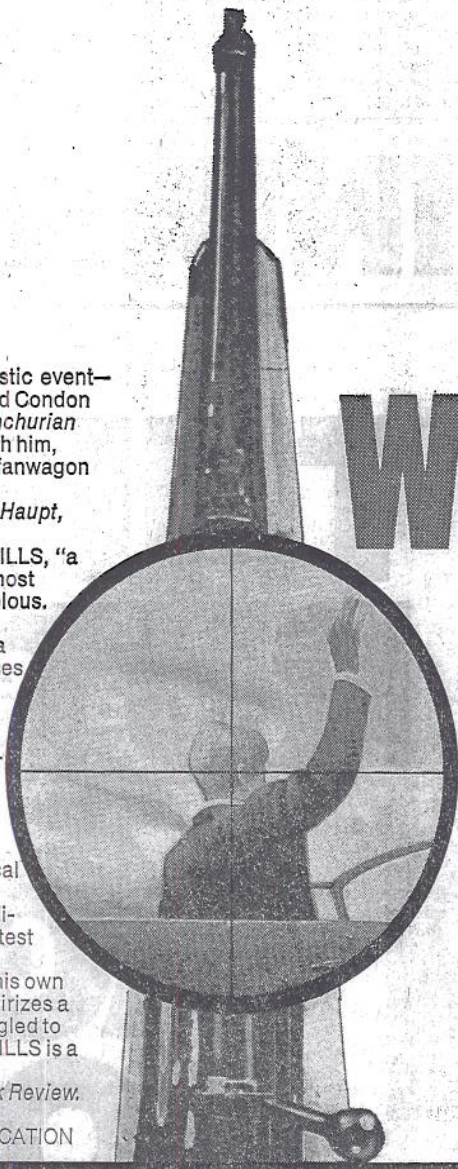

Publishers Weekly calls WINTER KILLS, "a political satire so powerful as to make most recent exercises in the genre seem frivolous. Condon, shuttling rapidly between the assassination and the present, weaves a story that finally and with icy logic exposes the industrial-military-political-criminal clique that is running America, reaping cold cash from the American dream and using the latest in communications techniques to keep the people perpetually confused. For its suspense, psychology and bold admixture of the real and the speculative, the story is riveting; as a reflection of Watergate and actual political assassinations, it is very disturbing."

"If you liked 'The Manchurian Candidate' you won't want to miss Condon's latest labyrinthine thriller."—*Library Journal.*

"By mingling historical reality with his own fabulous invention, Condon savagely satirizes a world in which fiction and reality are mingled to manipulate, exploit and kill...WINTER KILLS is a triumph of satire and knowledge."

—Leo Brady, *The New York Times Book Review.*
