

Frazier, Wesley

2-H

Unable to identify either the ~~blue-grey~~ blue-grey jacket or the brown shirt with a hole in the sleeve shown him. Said Oswald was wearing a light grey wool jacket, that he had seen him wear it many times previously. As for the shirt, said he had seldom seen Oswald in a shirt, that he usually wore only a T-shirt under his jacket.

Unable to identify the paper package supposed to have contained the gun.

Described the package he had seen as fitting under the armpit when the lower end was cupped in Oswald's right hand. Frazier, who described himself as just over six feet tall, demonstrated that the package shown him extended nearly to his ear when held cupped in his hand as Oswald had held it.

thought shots came from railway tracks, marking spot in general direction on Exhibit 437, a course which intersects the pergola area, was standing in doorway of depository when shots were fired.
