

Kennedy wounds - back and throat

The following doctors said it was thought initially that the throat wound was an entrance wound:

Carrico	VI 5
Jones	VI 55
McClelland	VI 35
Peters	VI 71

The following doctors, in answer to a hypothetical question, agreed it was possible that a bullet entered the back and emerged from the throat:

Akin	VI 66
Baxter	VI 42
Carrico	VI 5
Jenkins	VI 50
*Jones	VI 55
McClelland	VI 38
Perry	VI 15

*Dr. Jones made the qualification that the throat wound would be consistent with an exit wound if the bullet was of "very low velocity to the point that you might think that this bullet barely made it through the soft tissues and just enough to drop out of the skin on the opposite side."

President Kennedy

Testimony of doctors from Parkland Memorial Hospital, major teaching hospital of Southwestern Medical School, University of Texas, Dallas

Head wound

Clark, Dr. William Kemp
Chairman, Division of
Neurological Surgery

VI, 18-30 3/21/64, Dallas
3/25/64, Dallas

Neck wound

Baxter, Dr. Charles Rufus
Assistant Professor of Surgery

VI, 39-45 3/24/64, Dallas

Carrico, Dr. Charles James
Resident, Surgery

VI, 1-7 3/25/64, Dallas
III, 357-366 3/30/64, Washington

Jones, Dr. Ronald Coy
Chief Resident (?), Surgery

VI, 51-57 3/24/64, Dallas

Perry, Dr. Malcolm Oliver
Assistant Professor of Surgery

VI, 7-18 3/25/64, Dallas
III, 366-390 3/30/64, Washington

Head and neck wounds

Jenkins, Dr. Marion Thomas
Chairman, Dep't of Anesthesiology

VI, 45-51 3/25/64, Dallas
