Every one of her admirers can now meet her personally in this first full-length, intimate portrait that “offers much previously unpublished material.”⁽²⁾

Rose

A Biography of Rose Fitzgerald Kennedy

By GAIL CAMERON

Illustrated with many never-before-published private photographs

"The Rose of these pages is a woman of slamming energy and relentless intent How else can one describe a woman of 80 who hikes two miles a day, swims in 56° water, wears gaudy slacks over a figure that makes you 'believe in the stork' and has announced her firm intention of living long enough to see Teddy in the White House?"—(1) LIFE

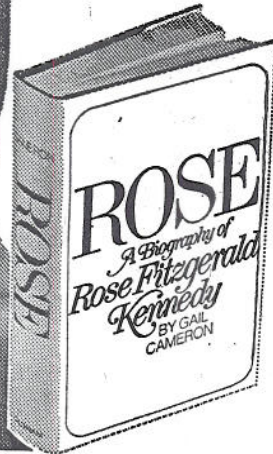

"ROSE exposes as adulative blather most previous exploitations of the Kennedy women. The absorbing personage presented [here] comes on as half pluperfect politician, half solitary saint . . . the strongest character of the Kennedy clan . . . and the only woman in U. S. history to send three sons to the Senate."—(2) TIME

"A remarkable woman, fully portrayed Probably the best politician of them all."
