

**'HYSTERIA' IN WEST
IS FEARED BY ARABS**

AMMAN, Jordan, June 5 (UPI)—Palestinians here voiced fears today that a "wave of anti-Arab hysteria" in the United States and other Western nations might follow allegations that a Palestinian Arab had shot Senator Robert F. Kennedy.

"Jewish propaganda" was one Palestinian Arab's reaction to reports that Sirhan Bishara Sirhan had been charged in the case.

"It's outrageous!" declared Mahmoud el-Sharif, editor of Amman's semi-official newspaper, Ad Destour. "What Arab in his right mind would do a thing like this? The only people to benefit from such actions are the Jews."

Some Palestinians expressed the belief that Sirhan was a "hired killer" and part of a Zionist plot to discredit the Arabs.
