

DALLAS RECORDS KENNEDY MARKER

DALLAS, April 25 (UPI)—The Dallas Park Board, under fire, approved today the text of a marker at the site of the assassination of President Kennedy.

The City Council is expected to approve the text, which deleted all reference to the history of Dallas.

The board caused an uproar when it approved for the marker a 322-word text that consisted mostly of details of Dallas's early history and 100 words at the end about the assassination.

It unanimously agreed today to a reworded marker that includes only details of the assassination. The marker would read:

"On Nov. 22, 1963, John Fitzgerald Kennedy, 35th President of the United States, visited Dallas. A Presidential parade traveled north on Houston Street to Elm Street and west on Elm Street. As the parade continued on Elm Street at 12:35 P.M., rifle shots took the life of the President and wounded Texas Governor John Connally.

"Findings of the Warren

Commission indicated that the rifle shots were fired from a sixth-floor window near the southeast corner of the Texas School Book Depository building, Elm and Houston, a half block north of this marker.

"President Kennedy expired at Parkland Memorial Hospital at 1 P.M. The John Fitzgerald Kennedy Memorial Plaza is nearby, bounded by Main, Record, Market and Commerce Streets."

A local contracting concern has been given four months to set up the marker at Dealey Plaza on the grass plot opposite the roadway where the President was shot by Lee H. Oswald.
