

KENNEDY ARCHIVES ILLUMINATE CUBA POLICY

by Henry Raymond

The John F. Kennedy Memorial Library [in temporary quarters at the Federal Records Center in Waltham, Mass.] has opened to scholars and researchers the first selection of its 15 million pages of documents and manuscripts, including transcripts of 300 oral-history interviews with such figures as Nikita S. Khrushchev, Mike Mansfield and a White House upholsterer.... The interviews add to the historical record many details of the President's attitudes and policies, particularly on foreign relations.

(The above and following stories filed CIA.)
