Hal brought you several news clippings, one of which was entitled, "The Police Accuse Irma Collazo of the Murder of Eladio del Valle" (Diario Las Americas, April 13, 1967.) The word "subministers" in the fourth paragraph is incorrectly translated. "subministros" apparently means "supplies." Be sure to correct my error. The two articles translated from Diario Las Americas were hurriedly done and are rather jerky.

In regard to another matter, Paul Hoch has written a short paper entitled, "NOTES ON THE CORDELL HULL FOUNDATION, AND RELATED MATTERS." If you wish a copy, please let me know.

OSWALD You possess an AP dispatch concerning Lee Oswald's attempt to secure employment in Shreveport, Louisiana. I believe the item is filed under "miscellaneous." Neither Stan Primmer nor Paul Hoch can recall the incident. Would you send me a copy if the news was moved over the "A" wire?

I have approximately thirty pages of rough notes taken from the New York Times and covering the period from February, 1963, through April, 1964. The notes relate to Cuban exile activities and are quite interesting. I will endeavor to duplicate the material, and hopefully, you will have copies within a month.

Very truly yours,

Bruce S. Lewis
