A Study of Marina

Marina Oswald, widow of Lee Harvey Oswald, will be the subject of a book scheduled for publication next year by Harper & Row. Priscilla Johnson, a Russian scholar who was a member of John F. Kennedy's Senatorial staff, is interviewing Mrs. Oswald and will write the book. The publishers state: "The purpose of this book will be to contribute what it can to the public knowledge and to history of the extraordinary circumstances, historical, sociological and psychological, attending the life of Oswald's wife and widow."
