Attendants at the hospital this morning said the Russian born widow of Oswald was "resting quietly and was being held over in the hospital merely for observation."

Mrs. Oswald, who insists she wants to live a "normal life" in the ~~United States~~ Dallas area with her two children recently has been reported writing a book for Harper and Row, New York publishers.

She refused comment recently on the Warren Commission report and said any comment she would have would be in the book.

She lives in a \$15,000 bungalow in Richardson and has about \$50,000 left of donations sent her by the American public following the slaying of her husband last Nov. 24 by Jack Ruby.

Originally the now chic, slender woman received more than \$85,000, but the money has dwindled quickly. A \$12,500 slice went last July to a former business manager and attorney.

The slim blonde has been dating in recent weeks and has been seen in various Dallas night spots.

As late as September she still expressed affection for her late husband because "I knew a different Lee."
