

DALLAS, Oct. 6 (AP) — Jack Ruby believes the Warren Commission report proved of little value in dispelling rumors that he was involved in a plot to assassinate President Kennedy, Ruby's chief defense lawyer said Tuesday.

The lawyer, Clayton Fowler, said he had told Ruby about the report in the county jail where Ruby is held. Ruby is appealing his death sentence for shooting Lee Harvey Oswald, the assassin.

Mr. Fowler said Ruby had replied "that the world still thinks he helped kill the President."
