

**Ruby Gets Blood Transfusion**  
DALLAS, Dec. 21 (UPI)—  
Doctors treating Jack Ruby for  
cancer admitted for the first  
time today that Ruby was  
weakening, but they said he  
rallied late in the day, after a  
blood transfusion. A spokes-  
man at Parkland Memorial Hos-  
pital said Ruby began breathing  
much easier after receiving a  
pint of blood.
