

What Rockefeller, Ford and Kissinger won't tell you...

Penthouse will.

JUL 11 1975

On April 15th, PENTHOUSE hit the stands with an article by Pulitzer Prize winning journalist Harrison Salisbury entitled: "The Gentlemen Killers of the CIA:"

It was the beginning of an explosive investigative series that has become one of the most widely quoted news sources on the CIA and the "intelligence community:"

Each month, outstanding journalists like Tad Szulc, Joseph B. Treaster and Harrison Salisbury continue to bring you the truth about the CIA and related agencies — their structures, methods and actions.

The fourth in this series, "Murder by Proxy" by Tad Szulc, actually lists in ominous step-by-step detail the way in which CIA murder plots officially evolve, right up to final approval at the top.

Read it in the August issue. On newsstands today.
