## **SFChronicle** Congressman FEB 2 8 1975 Grabs FBI File On Himself

## Washington

The FBI said yesterday that Representative Robert Drinan spotted a background file on himself on a tour of the agency and — over the protests of his hosts — began looking through it on the spot. on thespot.

The incident occurred Tuesday on a tour of FBI fa-cilities by members and staff of the House Judiciary Committee.

Drinan, a Massachusetts Democrat, later sent a writ-ten demand that FBI Director Clarance Kelley bring the Drinan file to yester-day's hearing, but Kelley refused.
