Kennedy Plot - A Study of Film

New York

A former Pentagon official and a photographic analyst presented yesterday what they said was evidence of a conspiracy to kill President John F. Kennedy in Dallas in 1963.

Colonel L. Fletcher Prouty, a former Pentagon liaison officer with the [CIA], and Richard Sprague said at a news conference they based their presentation on a study in which 25,000 frames of still and motion picture film taken at the scene were examined. They said the Warren Commission examined five per cent of this material and the FBI ten per cent.
