warren commission

washington, ^{APRIL} March 2 (AP)- The warren commission took testimony today from experts about the fingerprints of Lee Harvey Oswald on various articles.

Reporters asked Allen Dulles, a commission member, if the testimony concerned a rifle which police say was used in the assassination of President John. F. Kennedy last Nov. 22.

He replied it dealt with "the rifle and other articles" found on the sixth floor of the Texas School Book Depository Building from which police say the shots were fired. Police also have said that Oswald's fingerprints were found on the rifle.

The commission took testimony from Sevastian "atona, FBI expert on latent fingerprints; and detective Arthur Mandella, fingerprint expert of the New York police, who accompanied by Lt. Joseph Monney, also of the New York police.

Tomorrow's ~~experts~~ witnesses will be FBI experts on hairs and fibers and on questioned documents.
