Warren Probe to Hear Lawyer Lane Again

London

A New York lawyer who is trying to prove the innocence of Lee Harvey Oswald told a news conference here yesterday "we will never get the facts about President Kennedy's assassination from the Warren Commission."

Then attorney Mark Lane announced he had received a telegram from the commission urging him to fly home and give it information. He

has been claiming that the assassination probe is being mishandled.

Lane said he would return to Washington tomorrow for his second appearance before the Warren group.
