(From story on breakfast meeting with reporters by Sen. Frank Church, chairman of Senate Select Committee on Intelligence, 16 May 75.)

"Asked about rumors and doubts surrounding the assassination of President Kennedy on Nov. 22, 1963, Church said the committee will confine itself to the degree of cooperation the CIA and the FBI gave the Warren Commission and to the question of whether either withheld important information.

"If further investigation seems warranted, Church said, the committee 'will say so' in its final report."
