## LETTER TO THE EDITOR

Dear Sir:

When President John F. Kennedy was assassinated four and a half years ago, government "experts" almost immediately said Oswald was the lone assassin despite the fact there was (and is) overwhelming evidence pointing to a conspiracy. When Rev. Martin Luther King was assassinated under similar circumstances and even before the suspect was apprehended, again government "experts" said there were no signs pointing to a conspiracy when there was (and is) strong evidence to the contrary. Now Robert Kennedy has been killed (shot in the head like the other two) and for a third time the government "experts" said "no conspiracy" before the Senator's body was even buried.

Dr. Spock, an opponent of Johnson's illegal and immoral war in Vietnam, was arrested, tried and found "guilty" all within a few short months, while Jim Garrison's strong case against Clay Shaw is delayed again and again by a Federal Judge beholden to a power-mad President with a one-track mind.

Humpty-Dumpty Humphrey (who could hardly muster ten percent of the primary votes) is now being crammed down the throats of the American people by a political machine that stinks to high heaven.

What is going to happen next? How much of this will the people of this nation take?

The professional hatemongers—the fascists in our midst—and certain elements of the CIA—must be very happy.

Dear Sir,

What entitles the government to lecture the American people on violence while the Warren Report continues to do violence to the truth?

Sincerely,
