A Sign from on High

Many people who cannot face the truth about the assassination of President John Kennedy still like to refer to the long list of "strange coincidences" associated with the assassination. We think the activities below should be recalled to be added to the endless list.

Maybe the feverish activity of six persons who were closely related has no connection with the assassination, but we feel their movements should be recalled. Marina Oswald was to testify later that her husband went out and purchased a

newspaper on the morning of April 24, 1963. He took off by bus for New Orleans that same day and is next seen in New Orleans five days later.

Mike and Ruth Paine moved Marina into their home on that April 24th, then took off for San Antonio for five days—leaving a stranger who spoke only Russian alone in their home.

Mr. and Mrs. George DeMohrenschildt, whose

information always seemed to be a little better, left Dallas on April 19, 1963. He may have been rushed away due to the strange death of his next door neighbor, Dr. William T. Wolf who burned to death in his apartment on that day. General Edwin Walker said he suspected Wolf with relation to the Walker shooting attempt.

On April 23, 1963, Vice President Lyndon Johnson made a round of appearances in Dallas, including a stop for a press conference at The Dallas Times Herald in which he predicted President Kennedy would visit Texas later in the year. Johnson gave the general schedule which included a Dallas luncheon.

During the day's activities, Johnson spoke to 2,000 business and civic leaders in the Crystal Ball Room of the Baker Hotel. Included in Lyndon's remarks, according to page 22 of The Times-Herald of April 24, are the quoted paragraphs:

He said the President of the United States is like a pilot and the election is when the nation picks an airplane and a pilot for the next four years.

COMMON DANGER

"Once you pick him, and you're flying across the water in bad weather, don't go up and open the door and try to knock him in the head. He's the only pilot you have and if the plane goes down, you go with it.

"At least wait until next November* before you shoot him down."

November 1963 was not a Presidential election year! Did this man who had been an office holder for twenty five years forget his election calendar?
